## July 2025 Newsletter

June 19, 2025

Meeting called to order at 7:03pm

IN ATTENDANCE: Vice President: MichelleB; Secretary: Jenny Styles ; Past President/Treasurer: Carol Landt; Beth Brannian; ; Robin Probst; Lynn Salas

### Board Musings

Thank you to any and all volunteers that help make the shows and clinics happen! Speaking of, there is a fun event coming right up at Sunset Park on July 12th and 13th, watch for emails asking for volunteers. And, we'd love to have a fall schooling show, either dressage and/or Working Eq, but we need someone to take the helm and organize it. There is a hospitality committee that can help with lunch for the judge(s), and goodie bags for volunteers, along with a prize committee that stores and keeps track of the ribbons, so hopefully knowing this will help someone to step up and be the host for a fun fall/Halloween event!

~Michelle

## **FALL SHOW ?????**

Please let us know if you are interested in a fall show around halloween that would include costumes 😊 We would need a volunteer chairperson too.

Misty River has offered to host the show.

## **IN THE WARM UP AREA**

### **Left Shoulder to Left Shoulder**

The first and most well-known rule in arena traffic is this: when passing another rider head-on, you should pass left shoulder to left shoulder. This means the rider traveling to the right (clockwise) yields to the rider going left (counter-clockwise). Look up, plan ahead, make eye contact if possible, and call out “inside” or “outside” if the rider doesn’t seem to see you coming.

### **Straight Lines Have the Right of Way**

If one rider is on a straight track (like down the long side of the arena) and the other is riding a circle or figure, the rider on the straight track has the right of way. So if you’re riding a circle

and someone is coming down the rail, bring your circle in slightly and let them pass by without cutting them off.

### **Re-Entering the Track**

If you're returning to the rail after an exercise (like a circle or diagonal), be aware of riders already on the track. The rider on the rail always has the right of way. Wait for an appropriate moment and merge back in without cutting off or surprising anyone.

### **Go Behind, Not In Front**

If you're ever unsure who has the right of way—or if you're in a tight spot—default to riding behind the other horse. It's the safest way to avoid accidents and keep the peace in the arena. Cutting off horses in front can create unnecessary tension and danger.

### **Dealing with Aggressive Riders**

In warm-ups or show environments, you might encounter riders who seem to dominate the space or even try to intimidate others. Stay calm, avoid confrontation, and do not put your horse in a risky situation. Ride into open spaces, avoid corners where your horse can get trapped, and remember—you have every right to be there too.
